Agenda

Chair Update

Sustainability Minor approved for Fall 2021

ASI Sustainability Affairs Committee

Chair: Kea Kaholoa'a, ASI Director of Sustainability

The Sustainability Affairs Committee's purpose and duties involve the promotion of environmental awareness in the campus community, partnering with University staff and faculty as well as the Facilities and Operations Department. The committee shall work to develop student programs geared toward the advancement of sustainability on campus. Other duties of the Sustainability Affairs Committee shall be to:

- Poll students on issues of sustainability.

- Promote awareness of campus sustainability efforts through a variety of methods (i.e. social media, tabling, and campus events).

- Develop and maintain partnerships with the University to support environmental sustainability projects.

- Develop and maintain strategies and policies to increase ASI's sustainability performance and reduce the environmental impact of ASI.

- Report to the Board of Directors on matters of sustainability.

Zero Waste Subcommittee

Members:

Robert Andrews, Director of Facilities Operations

Jillian Buckholz, Director of Sustainability

Brian Cravanas, Senior Custodial Coordinator

Academic Senate Committee on Sustainability

Chair: Dr. Ryan Heryford, Assistant Professor, English Department

Committee on Sustainability Duties:

Make policy recommendations to the Academic Senate regarding means to

Alternative Transportation Subcommittee

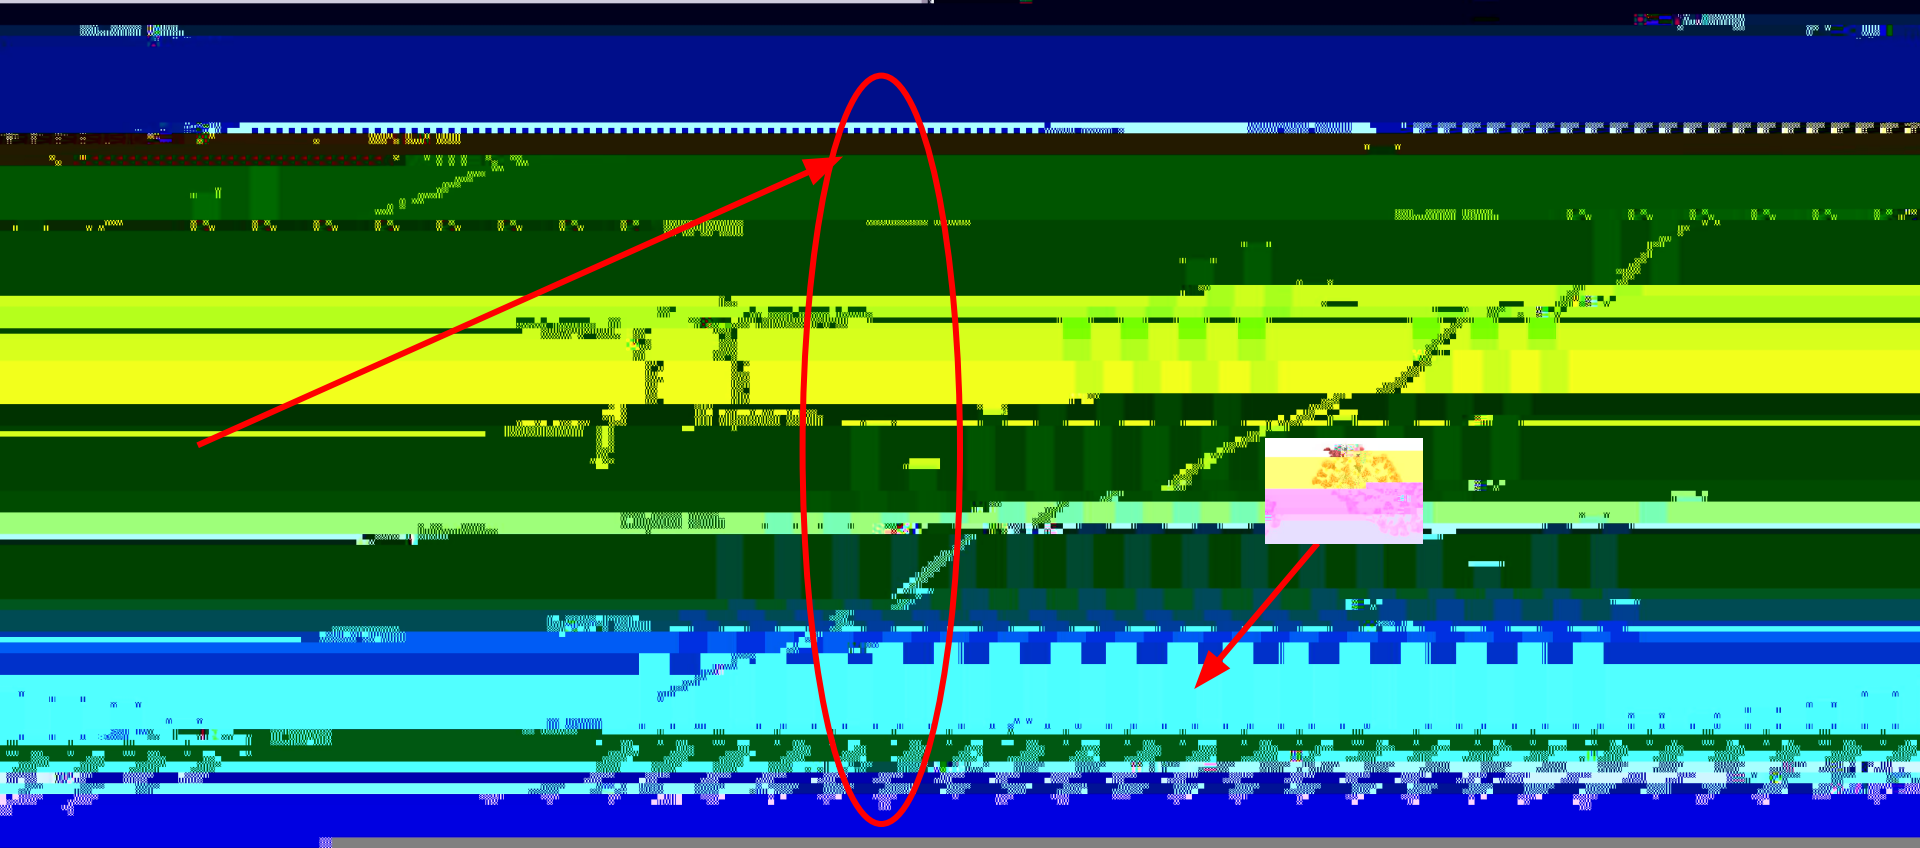

Co-Chair: Brenda Amaral, Interim Manager of Transportation & Parking Services

Purpose:

The purpose of the Alternative Transportation Committee is to assist Cal State East Bay in identifying and prioritizing recommended opportunities to improve pedestrian, bicycling, transit and other non-single occupancy vehicle commute modes to overcome barriers to the use by members of the campus community.

Other Updates from CSC Members?

Business:
EV Charging Rates Recommendation

1. EV charging station usage from Nov 2018 to Nov 2019 increased exponentially.
2. Highest month of EV charging station usage was Oct 2019
3. Notice the significant decline in EV charging in November 2019, the month the fee was initiated.

Business: EV Charging Rates

Students:

Charge \$0.00/kWh for ChargePoint Charging Stations (no fee, students charge for free!)

Faculty/Staff/MPP:

Charge \$0.14/kWh for ChargePoint Charging Stations (cost of what Cal State East Bay pays per kWh for electricity)

Increase rate to \$0.28/kWh for EVs that charge over 4 hours

Non-Cal State East Bay Community Members:

Charge \$0.40/kWh for ChargePoint Charging Stations

Any other fees associated with EV charging stations to be covered by revenues received by the campus' parking facilities, to the extent not pledged in connection with bonds or notes issued pursuant to the State University Revenue Bond Act of 1947, as authorized in the Education Code.

New Intel!

Interest in kWh and transaction cost (like an ATM fee) going to the user, not the campus

If kWh and transaction cost is covered by user, and not the campus, rates/kWh would increase to \$0.15 or \$0.16/kWh from the suggested \$0.14/kWh

Discussion: AY19/20 GHG Inventory

Ed Code 89701(3)

“All revenues received by the trustees from parking facilities, to the extent not pledged in connection with bonds or notes issued pursuant to the State University Revenue Bond Act of 1947, are hereby appropriated, without regard to fiscal years, to the trustees for the acquisition, construction, operation, and maintenance of motor vehicle parking facilities on real property acquired hereunder or on real property otherwise under the jurisdiction of the trustees, and for the study, development, enhancement, operation, and maintenance of alternate methods of transportation for officers, students, and employees of the California State University.” Citation: Ed Code 89701(3)

Adjournment

Next Meeting: Friday, September 3, 2021
